The Department has developed guidance and technical support materials regarding the role of assessments within the APPR system. These materials include methods to eliminate, where consistent with the district's or BOCES' instructional vision, the use of pre-tests and other locally-adopted standardized tests. In lieu of pre-tests, districts and BOCES can use past performance trends, historical data and/or prior-year test results to establish targets for determining student learning growth. Additionally, locally-adopted standardized tests can be replaced with state assessments, school-wide growth measures, or performance-based assessments. Education Law §3012-c provides you with design flexibility. The Department encourages you and your local bargaining units to use the available resources to ensure that thoughtful conversation occurs, and strategic decisions are made, regarding the use of student assessments. *Teaching, not testing, is the core of our work.* There are an assortment of ways in which a district or BOCES can design a meaningful and authentic assessment program that provides information to drive instructional decisions, ultimately leading to an increase in students' knowledge and skills. By taking the time to re-review your local assessment practices, you can engage in collaborative conversations with your local stakeholders about ways in which you might choose to use data and/or evidence more effectively and efficiently to ensure that all local tests help inform instruction and improve student learning, rather than needlessly add to the number of assessments administered within your district.

To help further facilitate these conversations on the local level, the Office of Teacher and Leader Effectiveness has reviewed your APPR plan and determined that there are a number of ways in which,

Consideration 2: Use of Multiple Assessments in Task 2 and Task 3
